

## **CareerGator.com Privacy Policy**

### **How we protect customer information**

We provide state-of-the-art data security precautions to safeguard your privacy and customer data. Privacy and data security are our highest priority.

### **Information we collect**

When customers order our services we request customer information that is required to process orders and payments. This information will be used to provide services to our customers and process payments with the exceptions noted below. We do not store any customer information in company databases.

### **Disclosure of personal information**

Only authorized-personnel have access to customer information. We do not share or release customer information to third parties with the following exceptions: 1) To process payment via Paypal; or 2) In the case of suspected fraud or illegal activities.

### **Payment Processing**

We accept the following types of payment for our services: 1) Credit or Debit Cards; 2) Paypal Account; or 3) Personal Checks. We give our customers the option of paying online with credit or debit cards or a Paypal account.

To provide the highest level of security to our customers, credit and debit card numbers are processed using Paypal's secure payment gateway. Paypal is the premier credit card processing company on the Internet and encrypts credit card and customer information using the leading industry standard 128-bits Secure Sockets Layer protocol (SSL).

Customers will be taken to Paypal's secure payment gateway to enter their customer and payment information directly into Paypal's site. We do not have access to credit card information and it is NOT stored in company databases.
